apartments are equipped with high-quality multisplit heating and cooling systems whose operating characteristics ensure maximum comfort and economy.

Each apartment is equipped with its own water and electricity meter. The sanitary water is prepared using a low-consumption electric boiler. All apartments have telephone, antenna, TV and internet connections, and each apartment has an intercom installation with a video intercom. The bedrooms and living room have parquet floors, while the hallways and hallways have tiles. The highest quality materials and built-in equipment will make each apartment extremely comfortable to live in, but also to rent out for tourist purposes. The completion of construction is planned for June 2025.

The apartment is located 800 m from the sea and the city center of Umag.
