End-of-row house in the vicinity of Umag

An end-of-row house is for sale in the vicinity of Umag. The net usable area of

the house is 110 m², with a garden/plot area of

approximately 100 m². The ground floor features a bathroom, a laundry room, a kitchen with a dining area, and a living room with access to a terrace. The upper floor contains 3 bedrooms, a walk-in closet, and a bathroom.

Heating is provided by an energy-efficient 36V carbon-based electric underfloor heating system in all rooms, while cooling is handled by air conditioning units. The walls between the units are additionally lined with 5 cm of rock wool for improved sound and

thermal insulation.

The building features an energy-efficient facade (15 cm expanded polystyrene/styrofoam insulation). The joinery is PVC with triple-glazed glass; the large glass wall in the living room is equipped with motorized aluminum shutters and insect screens, while the other shutters feature standard manual operation. The price includes an outdoor jacuzzi, an awning, either artificial or natural grass with an automatic irrigation system, and pre-installation (infrastructure) for a photovoltaic (solar) power system and an outdoor kitchen. The house comes with two covered parking spaces.

Construction is scheduled to begin in early 2027.

The house is located 4,000 meters from the sea and the beach, and 4,000 meters from the town of Umag and all its amenities.
